WHY SCHOOLS CHOOSE US

Structured Learning, Not Just Chat

Generic AI tools give students answers. Discourse AI gives schools a complete learning system — with courses, assessments, progress tracking, and certificates.

FOR TEACHERS

Create Courses in Minutes, Not Weeks

Turn a topic prompt or uploaded document into a full structured course — complete with lessons, quizzes, images, and multimedia.

AI Course Generation

Generate complete courses from a prompt or upload PDFs and Office documents to seed content.

One-Click Publishing

Share courses via simple links — students access learning without complex LMS setup.

Practice Studio

Progress checks, true/false, debate exercises, and writing tasks to deepen understanding.

Team Management

Invite teachers by email, manage accounts, and deploy across your whole school.

FOR STUDENTS

Engaging Learning That Sticks

Interactive lessons, gamification, and an AI tutor that challenges students to think — not just copy answers.

Socratic AI Tutor

Our "Socrative" mascot uses Socratic questioning to develop critical thinking skills.

Gamification

XP, levels, streaks, and badges keep students motivated and coming back.

Certificates

PDF certificates on course completion — downloadable and emailable.

Accessibility Built In

High contrast, large text, dyslexic-friendly font, and text-to-speech support.

Learn Anywhere

Web, iOS, Android, and Windows — perfect for BYOD school environments.

FOR SCHOOL LEADERS

Deploy with Confidence

Purpose-built for UK schools with the compliance, integrations, and oversight your leadership team needs.

Arbor MIS Integration

Connect to Arbor for roster sync — reducing admin and keeping data accurate.

Progress Dashboards

Per-course analytics: completion rates, quiz scores, and engagement insights.

Security & GDPR

Two-factor authentication, data processing agreements, and UK data protection compliance.

School Tenant System

Isolated school environment with role-based access for admins and teachers.

GETTING STARTED

1

Book a Demo

Walk through the platform with our team — tailored to your school's needs.

2

Onboard Your Staff

Invite teachers, connect Arbor MIS, and start creating courses on day one.

3

Launch with Students

Publish courses and share links — students start learning immediately.
