INTRODUCTION

**YOUR TURF.
OUR PASSION.**

ABOUT.

Originally founded as Pitchmark in 2010, the company was solely a manufacturer of line marking paint and equipment with a focus on export. By 2019, Turfix was launched as a supplier of premium quality products to the professional sports turf sector, giving Pitchmark a sales arm within the UK alongside our key suppliers and partners.

OUR AIM.

From line marking paints and machines to pitch care equipment and accessories, our highly experienced team works closely with key manufacturers to cater to all your turf management needs. In addition to our strong relationships with ICL, Harrod Sport, Block Blitz, Duralock, and Tildenet Sport, we are proud to bring Pitchmark's cutting-edge line marking solutions to our customers.

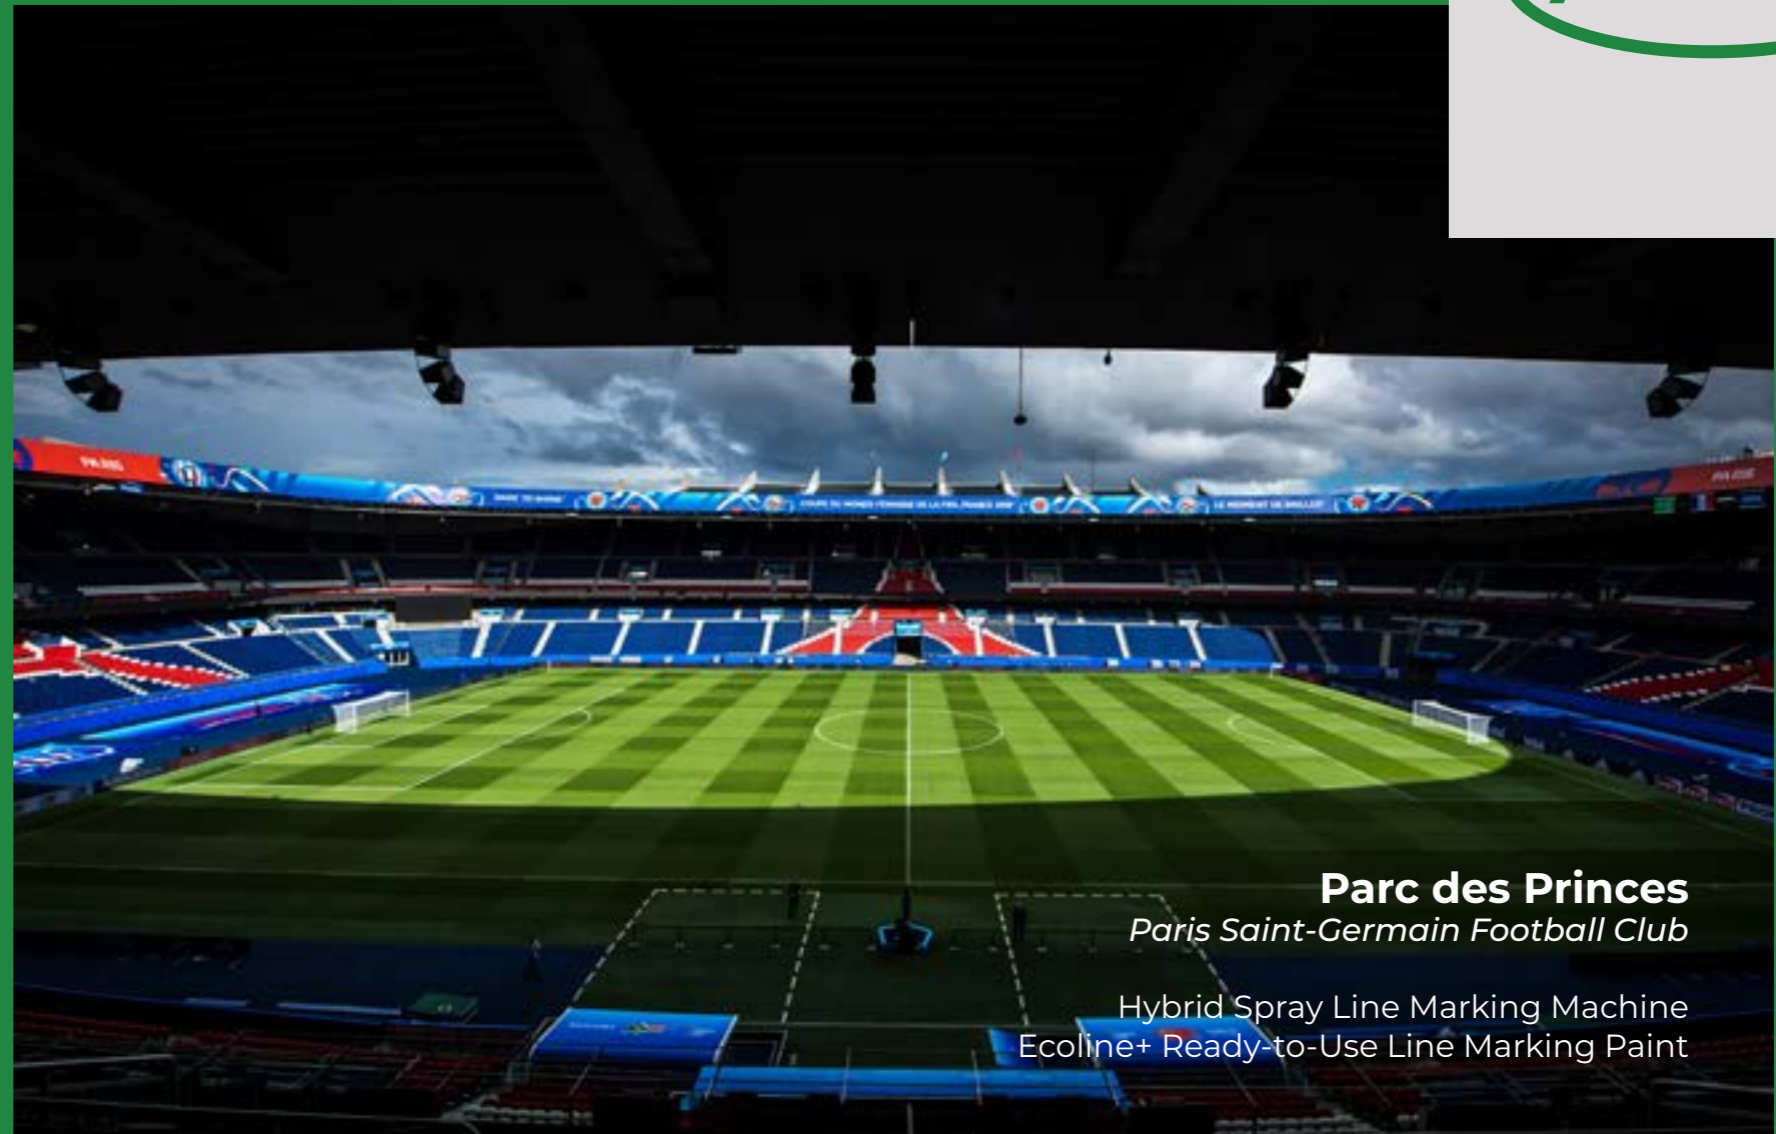

LINE MARKING

ABOUT.

As part of The Pitchmark Group, Turfix supplies a full range of line marking paint and equipment from leading manufacturer Pitchmark.

The range includes concentrate and ready-to-use pitch marking paints, transfer wheel-to-wheel markers, spray markers and a variety of linemarking accessories.

Handbuilt and manufactured in Britain, Pitchmark line marking products are used by turf professionals at the highest level, including several Premier League clubs, Euro 2016 France, and the World Cup Qatar 2022. The machines are supplied with a 12-month manufacturer's warranty, with a further 24 months on registration.

Parc des Princes
Paris Saint-Germain Football Club

Hybrid Spray Line Marking Machine
Ecoline+ Ready-to-Use Line Marking Paint

Also available in bag-in-box*

READY-TO-USE COLOUR
ECOLINE+

Highest quality, low-consumption line marking paint for spray markers. Dries quickly allowing you to water your pitch soon after marking yet maintain a crisp, durable line with no ghosting.

SIZE
10L

Paint required for 1 full-size football pitch

CONCENTRATE COLOUR
EXTREME

Pitchmark's highest grade concentrate line marking paint, with extra pigments and binders to ensure it not only stands out on the pitch, but is also very durable and weather-resistant.

SIZE
10L & 600L

Mixing rate for 1 full-size football pitch

Also available in bag-in-box*

READY-TO-USE COLOUR
DIRECT

An extremely popular low-volume ready-to-use, advanced ingredients make it a very bright and long-lasting pitch marking paint.

SIZE
10L

Paint required for 1 full-size football pitch

READY-TO-USE COLOUR
EDGE

Introducing Edge, a new paint for any spray line marker, pedestrian or robotic. Compatible with common hollow cone nozzles, it delivers Pitchmark quality across all your equipment.

SIZE
10L

Paint required for 1 full-size football pitch

Also available in bottles*

CONCENTRATE COLOUR
LUMEN

A highly luminous and durable concentrate positioned between Clubline and Extreme products. Designed for versatility, it is compatible with all spray and transfer wheel markers.

SIZE
10L & 600L

Mixing rate for 1 full-size football pitch

CONCENTRATE COLOUR
CLUBLINE

A bright and weather-resistant concentrate aimed at groundsmen marking out sports pitches regularly. Designed to be used in any spray or transfer wheel line marking machine.

SIZE
5L & 10L

Mixing rate for 1 full-size football pitch

SPECIALIST FORMULATIONS

INNOVATIVE COATINGS FOR YOUR SURFACE

In addition to our ready-to-use and concentrate line marking paints, Pitchmark also manufactures specialised paints compatible with any line marking machine on the market.

CONCENTRATE COLOUR

LINE-OUT

Lineout is a specialised green concentrate paint designed to cover white lines. Ideal for multi-sport pitches, it can be diluted to achieve the desired shade. Suitable for use with spray or transfer wheel markers.

SIZE
10L

Can be further diluted to achieve the desired shade of green

READY-TO-USE COLOUR

AGP

AGP (Artificial Grass Paint) is an advanced ready-to-use formulation designed for artificial grass surfaces including 3G and 4G. Using the latest acrylic binders provides greater adhesion to the surface making it long-lasting and durable.

SIZE
5L & 10L

Paint required for **1 full-size** football pitch

NEW SUSTAINABLE PACKAGING

NEW BAG-IN-BOX PACKAGING

Our partners at Pitchmark have introduced an innovative bag-in-box paint packaging designed to support organisations in meeting their environmental and sustainability objectives. Here's everything you need to know about this new packaging.

RESEARCH & DEVELOPMENT

IMPROVE SUSTAINABILITY

The new 'bag-in-box' packaging is significantly more sustainable than standard 10L plastic drums.

It uses **90% less plastic**, drastically reducing your plastic waste. The outer packaging is made of cardboard, which can be easily flattened and recycled.

The bag-in-box offers substantial environmental benefits, including an **80% reduction in CO2 emissions** from transportation and **89% reduction in CO2 emissions** during production.

TRANSPORT & LOGISTICS

REDUCE SHIPPING SPACE

Compared to standard plastic 10L drums, the savings in the pre-purchase supply chain are significant:

1 truck can carry **5,280 drums** equalling **24 pallets**. Whereas **6,000 empty bags** occupy just **2 pallets**.

This means the shipping space required is reduced by approximately **90%** when the packaging is delivered to us.

24x

Pallets = 5280 drums

2x

Pallets = 6000 bags

SPRAY

HYBRID

Designed with and for sports turf professionals, Pitchmark's flagship, patented Hybrid spray line marking machine is the ultimate choice for stadium pitches.

The unique Hybrid combines the manoeuvrability of a three-wheeled marker with the efficiency of a spray marker. The machine feels incredibly well-balanced and light to lean back.

SPRAY

ECO CLUB

Used by groundsmen across the globe, the Eco Club is Pitchmark's most popular battery-powered spray line marking machine, engineered especially for our range of high-quality line marking paints.

The Eco Club is designed by groundsmen, for groundsmen, so is straightforward to use and easy to maintain for all users.

SPRAY

ECO PRO

The Eco Pro line marking machine is a high-end upgraded version of the popular Eco Club and is just as easy-to-use for all grounds staff.

Using the same proven chassis and components to achieve a fantastic line, the Eco Pro significantly benefits from extras including a 25L paint tank, a 6L water tank for cleaning, as well as a larger battery for extended use.

SPRAY

ECO LITE

Designed by grounds staff, for grounds staff, so is straightforward to use and easy to maintain for all users. Affordability, performance, and appearance make the Lite an excellent choice for all line marking needs.

The plastic chassis is a real game changer, reducing costs dramatically, whilst maintaining the sturdiness that's synonymous with the Pitchmark brand.

SPRAY

FUSION

Affordability, performance, and appearance make the Fusion line marking machine an excellent choice for all levels of sport. Combining both the style and engineering from its older sibling, the Hybrid, along with a high-density polyethylene (HDPE) body instead of a steel chassis.

WHEEL-TO-WHEEL

CLASSIC

Easy-to-use and popular with amateur and professional grounds staff alike, including several stadia. The Classic is available in 50, 75, 100, and 120mm line width variants with an 18L paint capacity.

The Classic is made to a demanding specification from the best quality materials available.

01.

01. BESPOKE BRANDING

Pitchmark's internationally renowned line marking machines are trusted in some of the largest stadiums and most prestigious tournaments around the world. With our custom branding options, you can personalise your machine and showcase your team's colours every time you mark the pitch.

02. S/S NOZZLES

Pitchmark has developed new stainless steel nozzles in-house to boost line brightness, improve paint control, and maintain a low flow rate. The new numbered versions replace the coloured models, delivering more accurate spraying, greater efficiency, and less waste.

03. 200M STRING LINE

Designed & developed for marking out sports pitches, courts & tracks. When marking out a pitch, the string often stretches when pulled between points, causing the line to appear wobbly. This 4mm thick string is specifically designed not to stretch, allowing you to have perfectly straight lines!

04. 100M MEASURING TAPE

Perfect for groundsmen, this reliable 100m measuring tape (330ft) provides superior accuracy when setting out a pitch. It is crafted with PVC-coated fibreglass with metric measurements and a metal hook on the end.

02.

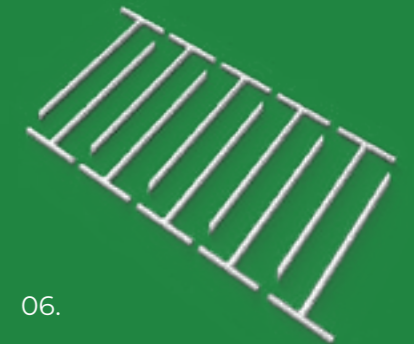

05.

03.

06.

04.

07.

05. SPARE PARTS

A wide range of high-quality spare parts for your Pitchmark line marking machine, ensuring that your equipment is always running at its best.

06. MOWING PINS

These pins are designed to sit flush with the playing surface, enabling you to string out mowing bands without interfering with your mower. We also provide pitch marking pegs in packs of four and ten.

07. LINEFIX

The ground-breaking LineFix System has been engineered to easily remark sports pitches. This product utilises a sequence of 'sockets' placed into the turf. By connecting a line between two of the sockets, you can accurately string out your pitch in record time, time after time.

LINE MARKING CHECKLIST

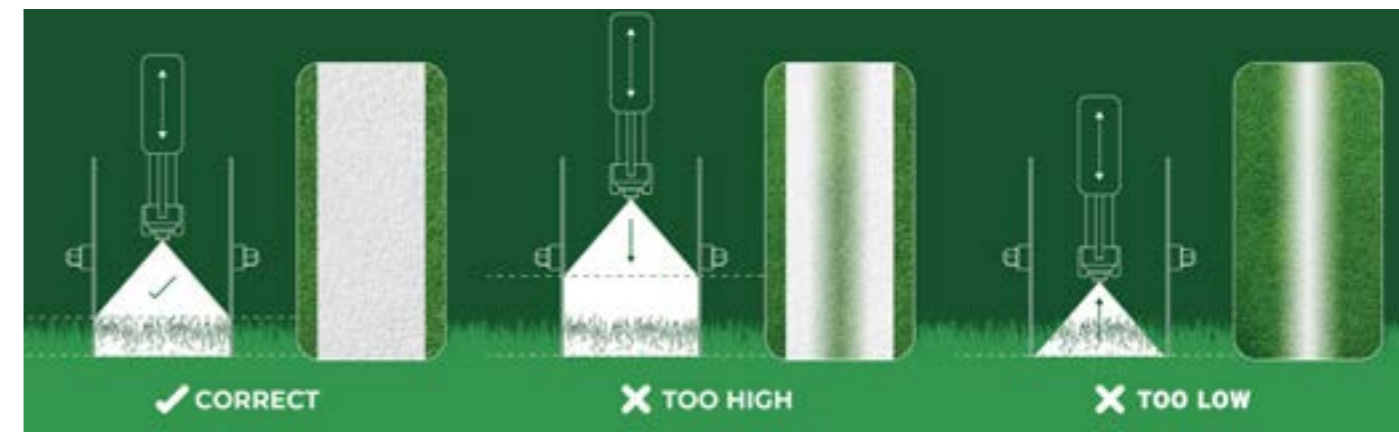

THREE KEY STEPS TO CONSIDER BEFORE MARKING OUT

NOZZLE HEIGHT

HOW TO SET YOUR NOZZLE HEIGHT CORRECTLY

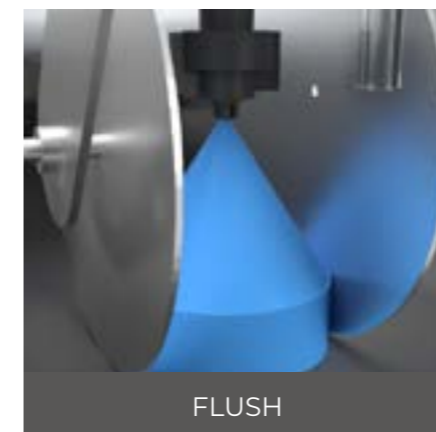

01. TO ACHIEVE THE BEST RESULTS, IT'S IMPERATIVE THE NOZZLE IS SET TO THE CORRECT HEIGHT
02. TURN THE MACHINE ON
03. AS THE PAINT IS SPRAYING THROUGH THE NOZZLE, UNDO THE SMALL HANDWHEEL ON THE NOZZLE BRACKET
04. RAISE OR LOWER THE BRACKET SO THAT THE PAINT HITS THE DISC WHERE THE TOP OF THE GRASS MEETS THE DISC

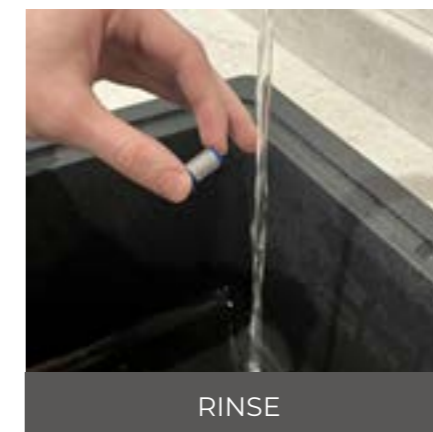

AFTER USE: CLEAN & STORE

HOW TO CLEAN AND STORE NOZZLES & FILTERS CORRECTLY

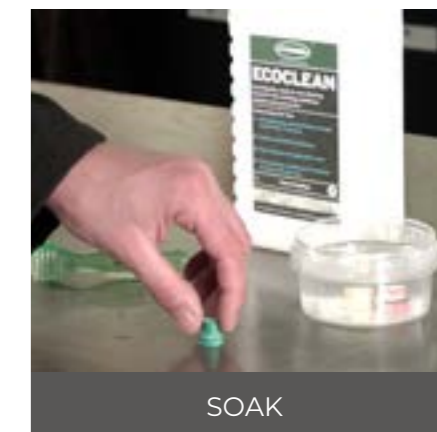

01. FLUSH MACHINE THROUGH WITH WATER OR ECOCLEAN
02. FLUSH AND RINSE THE NOZZLE AND ALL FILTERS WITH CLEAN WATER
03. AFTER RINSING, SOAK ALL NOZZLES AND FILTERS IN A POT OF ECOCLEAN SOLUTION WHEN THEY ARE NOT IN USE
04. REPEAT THIS PROCESS AFTER EACH TIME YOU MARK OUT ON YOUR SURFACE

FLUSH

RINSE

SOAK

PITCH FENCING

ABOUT.

Exceptional sports turf facilities require the perfect equipment to complement them! We offer Duralock's high-quality sports pitch fencing, suitable for football, rugby, cricket and more.

Duralock Sports Pitch Fencing is made from PVCu, with at least 80-91% of the material being recycled from old windows. This sustainable choice combines strength, durability, and low maintenance.

All backed by governing bodies such as **RFU** (Rugby Football Union) and **FA** (Football Association). They meet the rigorous standards required for these sports and boast a **15-year guarantee**.

DURALOCK

POST & 2 RAIL

Duralock Sports Performance Fencing has been developed specifically with sports in mind and is approved by governing bodies worldwide. The systems can be adapted to any sporting environment, from professional stadiums to grassroots venues, schools, and universities; we have a system for you.

The smooth, rounded surfaces, concealed fixings, and the fencing's ability to flex make Duralock the safest option for players, officials, and spectators. Duralock fencing systems use an award-winning patented dual chamber design and are suitable for sport at all levels from The Premier League through to grassroots clubs. Our systems suit use on all surfaces, from natural turf to artificial surfaces.

DURALOCK

DOUBLE MESH

This system will fully enclose your pitch and is approved by the FA for clubs who play at Step 1-4 in The National League System (NLS).

DURALOCK

HALF MESH

This system has all the same qualities as Duralock post and 2 rail spectator barrier fencing with the addition of a half mesh infill panel to prevent the ball from leaving the field of play.

DURALOCK

PICKET FENCING

Popular for cricket ground boundaries, the aesthetic design is in keeping with wooden alternatives, however once installed Duralock PVCu systems are maintenance-free.

TURF NUTRITION

ABOUT.

TurfFix supplies a complete range of granular, liquid and soluble fertilisers from ICL and Syngenta. ICL fertiliser technologies (including Poly-S, PACE, MU2 and SILK) deliver the optimum level of nutrient to support healthy turf.

Conventional, controlled (coated) and slow-release technologies are all available to help you design your nutrient programmes to support the production of healthy and high quality turf.

When it comes to protecting your turf and overseeing landscape areas, ICL and Syngenta offer a comprehensive selection of plant protection and control products, equipping you with the essential tools for effective management.

GREENMASTER PRO-LITE

Outstanding micro-granular fertiliser range for high quality, fine turf nutrition. It's been designed with you in mind and lets you achieve optimum grass health all year round.

The perfect solution for all your lawn areas, including greens, tees, fairways, and sports fields. You'll see your turf looking better within a week, and the results will last for six weeks.

- Pro-Lite Double K CalMag 7-0-14 +8CaO +5MgO +TE
- Pro-Lite Turf Tonic 8-0-0 +3.3MgO +3Fe
- Pro-Lite NK 12-0-12 +3MgO +2Fe
- Pro-Lite Cold Start 11-5-5 +8Fe
- Pro-Lite Autumn 6-5-10 +6Fe
- Pro-Lite Autumn Mg 6-5-11 +3MgO +Fe
- Pro-Lite Invigorator 4-3-8 +3.3MgO +4Fe + Seaweed
- Pro-Lite Invigorator Plus 4-3-14 +2MgO +8Fe
- Pro-Lite Spring & Summer 14-5-10 +2MgO

PROTURF

High impact granular fertiliser range for tees, surrounds, fairways, sports fields and lawns.

ProTurf contains a combination of Poly-S controlled release fertiliser technology, readily available urea nitrogen and polyhalite, a unique multi-nutrient compound fertiliser. The controlled release Poly-S technology leads to consistent, regular growth over a 2-3 month period without growth peaks.

- 20-0-7 +3CaO +3MgO
- 15-5-15 +5CaO +2MgO
- 12-5-20 +2CaO +2MgO
- 21-5-6 +2.5CaO +2.5MgO

SIERRABLEN PLUS & MINI

ICL's Sierrablen Plus and Mini ranges are controlled release mini-granular fertilisers of superior quality.

The Sierrablen Plus range of turf fertilisers contains Poly-S and resin coated PACE technology with conventional nitrogen sources to provide the best long-term nutrient release patterns. The Sierrablen Mini range utilises a combination of both controlled release and conventional fertiliser technologies with 4 - 5 month longevity.

- Plus Renovator 20-20-8
- Plus Stress Control (3+M) 15-0-28 +2MgO
- Plus Active (3+M) 19-5-18 +2MgO +TE
- Plus Pearl Renovator 11-11-5 +4CaO +8MgO
- Mini Autumn & Winter 15-5-16 +3CaO
- Mini Spring and Summer 19-5-5 +6CaO +2MgO

LIQUIDS

ICL manufacture a wide range of high-quality liquid and soluble fertilisers, biostimulants, stress protection, amino acids, potassium silicate, seaweed and iron formulations to help create and maintain the perfect surface.

When it comes to protecting turf and managing landscape areas, ICL's range of plant protection and control products provides the majority of the tools you'll need in your armoury.

- Greenmaster Liquid Advance Cal-Mag
- Greenmaster Liquid Advance High K
- Greenmaster Liquid Advance High N
- Greenmaster Liquid Advance NK
- Greenmaster Liquid Advance Spring & Summer

04.

07.

01. ACCUPRO 360ST SPREADER

The new ICL AccuPro 360ST Rotary Spreader offers a 30 kg capacity, durable stainless-steel frame, and maintenance-free gearbox for top-tier performance. Its SmartSpread™ system ensures precise, even fertiliser application.

03. PROSELECT SEED

ProSelect turfgrass seed blends have been specifically created to produce the highest quality turf. Each blend enables turf managers to optimise their courses and grounds, saving time and lowering costs to ensure playing surfaces offer the best experience for users.

05. FUNGICIDES

The range includes contact and systemic active ingredients for preventative, curative and eradicator actions on turf grass diseases like microdochium patch (fusarium patch), anthracnose, dollar spot, brown patch, take-all patch, leaf spot, type-2 fairy ring and rusts.

07. TURF PIGMENT

Ryder is a turf pigment that provides an incredible visual effect – producing a deep, desirable green colour – with a shade and intensity you can manage to suit your course and conditions. It also provides protection from harmful UV radiation and high light intensities.

02. WETTING AGENTS

Water is a precious resource that is essential for premium quality sports turf. Wetting agents and dew dispersants from Turfix, including ICL's H2Pro range and Syngenta's popular Qualibra, are designed to improve and optimise water/moisture management.

04. HERBICIDES

Praxys stands as a high-performance, concentrated systemic weedkiller, ensuring systemic uptake to the roots with no regrowth. Roundup ProActive is a highly active glyphosate formulation weed killer, for use in a wide range of areas including public spaces.

06. GROWTH REGULATORS

Primo Maxx II is the ultimate growth regulator for the improvement of turf performance, designed to increase sward density and root mass whilst reducing mowing frequency by up to 50%.

TURF PROTECTION

ABOUT.

Turfix provides a number of products from leading manufacturers Tildenet Sport including rain covers and frost covers for football pitches and cricket squares.

While turf protection covers may appear expensive, their cost is often justified if they prevent the cancellation of just one game.

Germination sheets offer reassurance during sports pitch renovations and seeding by safeguarding against the negative impact of birds, pests, and adverse weather, ensuring the well-being of your turf.

Webbed Edge & Brass Eyelets - 7.2m x 37.5m (x30 required for a full football pitch)

AIR ROLLER SYSTEM

Plain Edge Button Hole Eyelets - 21m x 76m (x5 required for a full football pitch)

Inflatable Roller - 21m (x5 required for a full football pitch)

Custom sizes available.

TILDENET SPORT

GERMINATION SHEET

Experience the unparalleled power of Tildenet Germination Sheets for faster, healthier plant growth. The Economy Germination Sheet can considerably improve the quality of your pitch at a fraction of the cost of re-turfing. Tildenet also manufactures Heavy Duty Germination Sheets that are effective against wind, birds, scorching, and frost, making them more reliable than ever.

TILDENET SPORT

RAIN COVER

These easy-roll rain covers have been meticulously crafted to ensure your pitch remains pitch-perfect, preventing waterlogged turf and the dreaded fixture cancellations that can accompany it. Whether you need full-pitch coverage or targeted protection for specific problem areas, these covers are your answer.

TILDENET SPORT

PRIVACY SCREENING

Loktex LS nets are exclusively manufactured by Tildenet for a variety of uses, including shading, screening and pitch maintenance. The shading and screening levels cover a wide range from 30% all the way up to 95%. This mesh is manufactured from durable HDPE flat tape threads using unique, double lock-stick, tearproof technology, which combines to produce the ultimate woven shade mesh with a UV Life span of over 10 years.

SPORTS EQUIPMENT

ABOUT.

Great sports turf just isn't the same without the right equipment to go with it. That's why at Turfix we only supply the best quality sports pitch equipment available on the market from leading manufacturers Harrod Sport.

TEAM SHELTERS

If you're looking for team shelters for your school or football, hockey or rugby club, you can't get better than the range from Harrod Sport. We offer the complete range including fibre tech, curved and panoramic team shelters, with bench or individual seats.

We offer a bespoke service with a full range of RAL bodywork colours to choose from as well as the option to screen print your club or school logos on these shelters.

HARROD SPORT

10 SEATER 5.3M PRO FIBRETECH TEAM SHELTER

Manufactured in one piece from composite fibreglass and polyester resin, with a smooth gel coat gloss finish. A sleek, contemporary alternative to the 'Standard' Fibretech the extremely strong and impact resistant 'Pro' features a large curved canopy ideal for keeping players dry.
