

WE ARE PROUD TO BE 100% NON-LANDFILL

100%
NON-LANDFILL

A Trusted, Sustainable Choice for your business

At **Hygienie Washrooms UK**, we are committed to protecting the environment by ensuring **no waste managed through our depot ends up in landfill**.

Every single sanitary, medical, and sharps waste unit we collect is disposed of responsibly using licensed incineration and energy recovery facilities.

The benefits for our customers:

-  Fully traceable waste journeys
-  Environment Agency Licensed Collection & Storage
-  Waste recycled into construction materials like cement
-  Certified with CIWM and SafeContractor approved
-  Electronic consignment notes stored for at least 2 years

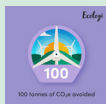

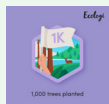

Our **approved disposal partners:**

We only work with **Environment Agency-approved facilities:**

- Newhurst Energy Recovery Facility (Permit: EPR/RP-3004MA)
- Sharpsmart Ltd. for Hazardous Waste Treatment
- Transfer & Treatment Permit No. EPR/XP3602PF

Our **accreditations:**

- Waste Carriers License: CBDU116788
- Environmental Permit: EPR/WE3931AB
- CIWM Certification for Health Care, Hazardous & Treatment Waste
- Safe Contractor Certified (DG9887)

HOW WE KEEP YOUR WASTE OUT OF LANDFILL

100%
NON-LANDFILL

Why this matters to your business

By choosing **Hygenie Washrooms UK**, your organisation supports a **cleaner, greener supply chain**. You gain peace of mind knowing your hygiene services partner shares your values for **responsibility, traceability, and sustainability**.

CUSTOMER SITE COLLECTION

- All feminine hygiene and nappy units are sealed in Tiger Bags
- Sharps units are sealed and segregated
- All waste is transported in leak-proof, segregated containers

DEPOT HANDLING

- Waste is stored securely in designated, locked bins
- Sharps, amalgam, and gypsum stored in clearly marked wheelie bins

ENERGY RECOVERY PROCESS

- Non-hazardous waste is incinerated at Newhurst ERF
- Hazardous waste treated at Sharpsmart
- The ash residue is recycled into construction materials, not sent to landfill

DIGITAL TRACKING & COMPLIANCE

- Every collection logged via handheld device
- Consignment notes stored digitally for audit and compliance
- All legal and environmental responsibilities met as standard
